EDUCATION

National Institute of Information Technology

Diploma in Software Engineering (awaiting) — Expected Nov 2025

Rivers State, Nigeria

GPA: Pending

- Concentrations: Full Stack Web & Mobile Development
- Coursework: Data Structures & Algorithms, Python, OOP, Java, JavaScript, React, SQL, HTML/CSS, Responsive Design, Mobile App Design, Git

Deeper Life High School

West African Senior School Certificate (WASSCE)

Bayelsa State, Nigeria

2017 – 2023

Elshaddai Nursery and Primary School

First School Leaving Certificate (FSLC)

Rivers State, Nigeria

2012 – 2017

EXPERIENCE

Independent Software Developer

2023 – Present

- Designed, built, and deployed full-stack applications including a Manhwa Reading App and Game Review Platform using React, Node.js, MongoDB, and Redis.
- Implemented authentication systems, caching strategies, and API integrations; improved performance via optimized database queries and frontend optimizations.
- Conducted testing with Postman and integrated error-logging tools; managed project documentation, roadmaps, and GitHub repositories.

Independent UI/UX & Graphics Designer

2019 – Present

- Designed user-centered interfaces through research, user flows, and usability testing; created wireframes, prototypes, and high-fidelity mockups for web and mobile.
- Simplified navigation and reduced friction points, improving user engagement, task completion rates, and retention.

PROJECTS

WhisperBox — End-to-End Encrypted Chat App

2025

- Built a secure real-time messaging app where all data is encrypted client-side before transmission; the server never accesses plaintext.
- Implemented Web Crypto API with AES-GCM for symmetric encryption and RSA-OAEP for key exchange; private keys never leave the client (stored in IndexedDB).
- Integrated JWT-based authentication, XSS protection, input validation, and graceful decryption error handling.

PageLens — AI Chrome Extension

2025

- Built a Manifest V3 Chrome extension that summarizes any webpage using the Gemini 1.5 Flash API with one click.
- Implemented summary caching via chrome.storage.local, XSS sanitization on AI output, dark/light theme toggle, and keyboard accessibility.
- Separated API calls to the service worker layer to protect the API key from page-level DevTools inspection.

Game Review & News Platform

Jun 2025

- Built a responsive React UI integrating the RAWG and News APIs for real-time game details and trending updates; implemented Redis caching on the backend for optimized search performance.

Manhwa Reading App

Jan 2025

- Developed a RESTful Express.js API for authentication, user data storage, and automated manhwa scraping with Playwright; stored reading history in MongoDB with Redis caching.

SKILLS

Languages: Java, Python, JavaScript, SQL, HTML, CSS

Frameworks & Libraries: Node.js, Express.js, React.js, React Native, Spring Boot

Databases: MongoDB, PostgreSQL, Redis

Tools: Git, Figma, Android Studio, VS Code, IntelliJ, Tailwind CSS, Bootstrap, Vercel, Postman, Playwright
